**Operating & Maintenance Costs:**

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History / Additional Information:**

This is an annual request which has received prior funding in order for the department to maintain its research vessels and aircraft in a safe operating condition. Prior year funding for the past five years is as follows: FY2002 \$450.0, FY2001 \$200.0, FY2000 \$150.0, FY1999 \$250.0, and FY1998 \$250.0.

## **Vessel and Aircraft Repair and Maintenance**

**FY2003 Request: \$300,000**  
**Reference No: 30129**

---

Major maintenance work will be performed on the division's large vessels (R/V Medeia, R/V Pandalus, R/V Resolution, R/V Kittiwake III and R/V K-HI-C) and aircraft. These vessels and aircraft support fishery monitoring efforts and are extensively involved in salmon, herring, groundfish, and shellfish stock assessment programs contained in the department's budget. The vessels and aircraft are used by other divisions in the department, and the Department of Public Safety to carry out their operational responsibilities as well.

Annual maintenance of the vessels and aircraft is necessary to maintain their longevity and protect the state's investment. Some examples of work are: replace genset; sandblast and paint; general yard work and inspection; engine overhauls; replacing fishing gear and aircraft manuals. If it becomes necessary, some of these funds might be used for unanticipated replacement of smaller unstaffed vessels or large maintenance projects on division aircraft.

The fishery monitoring and stock assessment programs carried out by these vessels and aircraft are critical to the division's ability to meet its constitutional mandate to manage the state's fishery resources for sustained yield. The projects funded by this request will ensure that the vessels and aircraft can continue to carry out their missions, as well as ensure the health and safety of the skippers, and crew.

Commercial fishing is the state's largest private sector employer. The programs supported by these vessels and aircraft ensure the continuation of commercial fisheries, and thus the jobs of those involved in the industry.
